Overview

OPNCAM8008 Hawk 588-1MA-UA 3D ToF Camera is a 3D ToF camera which has high integration, high precision, long measurement range, and low power consumption. This consists of a ToF image sensor, VCSEL driver and a ToF ISP.

Key Features

01 **High Integration and high precision for advanced applications**

02 **Low Power Consumption for longer use**

03 **Long Measurement Range for better results**

04 **Easy Visualization via the cross-platform compatible depth display software**

05 **Contains powerful SDK, APIs and example codes for convenient deployment**

Applications

- **Face recognition and face motion tracking**
- **3D reconstruction**
- **AR/VR**
- **Hand and finger tracking for gesture control and interaction with virtual objects**
- **Visual support for robot grippers**
- **People counting and motion analysis**
- **Surveillance**
