# Overview

The Grove - Triple Color E-Ink Display 1.54'' is a screen that can still be displayed after power off, we call it E-Paper(electronic paper) or E-Ink.

# Key Features

01 **Excellent contrast and reflectance**

Users can clearly see the various information displayed on this screen.

02 **Ultra wide viewing angle**

Unlike normal LCD screens, the ink screen looks the same at all angles and it even have antiglare hard-coated front-surface.

03 **Ultra low power consumption**

No worry about high power consumption even after long standby time and low current deep sleep mode supported.

04 **Grove unified socket**

The sensor ensures "Plug and Play" and could be versatile for various applications.
