Overview

All 4 ports are USB 3.0 with an industrial-grade design and a USB-A host connection to your computer.

Key Features

01 **4x USB 3.0 Ports - Connect up to four USB devices at USB 3.0 speeds (up to 5 Gbps) from a single host port.**

02 **Industrial-Grade Design -**

Built for dependable performance in industrial, embedded, and other demanding environments.

03 **USB-A Host Connection - Plugs directly into your computer's USB-A port with a 0.3 m cable for a tidy, low-profile setup.**

04 **RoHS Certified - Compliant with RoHS environmental requirements (certificate attached in the Product Documents section below).**

Applications

- **Expand a single USB-A port into four USB 3.0 ports for peripherals such as flash drives, external storage, keyboards, mice, printers, and USB tools.**
- **Designed for personal PCs, embedded systems, test benches, data-acquisition setups, and automation equipment that need dependable multi-device connectivity.**
- **Ideal for adding high-speed USB ports to servers, workstations, and development kits with limited built-in ports.**
