MaticBox 4 – Innovative case for Raspberry Pi 4 (White)

Innovative MaticBox 4 is a case for Raspberry Pi 4.

SKU	UPDATED	PRICE
114992502	2026-11-11 06:46:36	$11.99(Excl. VAT)

Overview

Innovative MaticBox 4 is a case for Raspberry Pi 4. It comes with a large set of components that make it applicable to a wide range of scenarios. It can be attached to any surface, including DIN rails. Multiple ventilation and cable slots as well as dedicated support for active cooling help keep the processor's temperature down. Makers will appreciate the included Automation Cover, which provides plenty of space to host large elements, such as relays and terminals. One of the most significant innovations are the specially designed feet at the bottom, which not only leave space to help with the cooling, but also make it possible to stack cases on top of each other.

Key Features

01 Easily mount to any surface with screws, zip ties or DIN rails

02 Ability to stack on top of each case

03 Multiple ventilation slots with fan adapter for better heat dissipation

04 Low profile cover for minimal footprint

05 Automation cover for industrial scenarios
