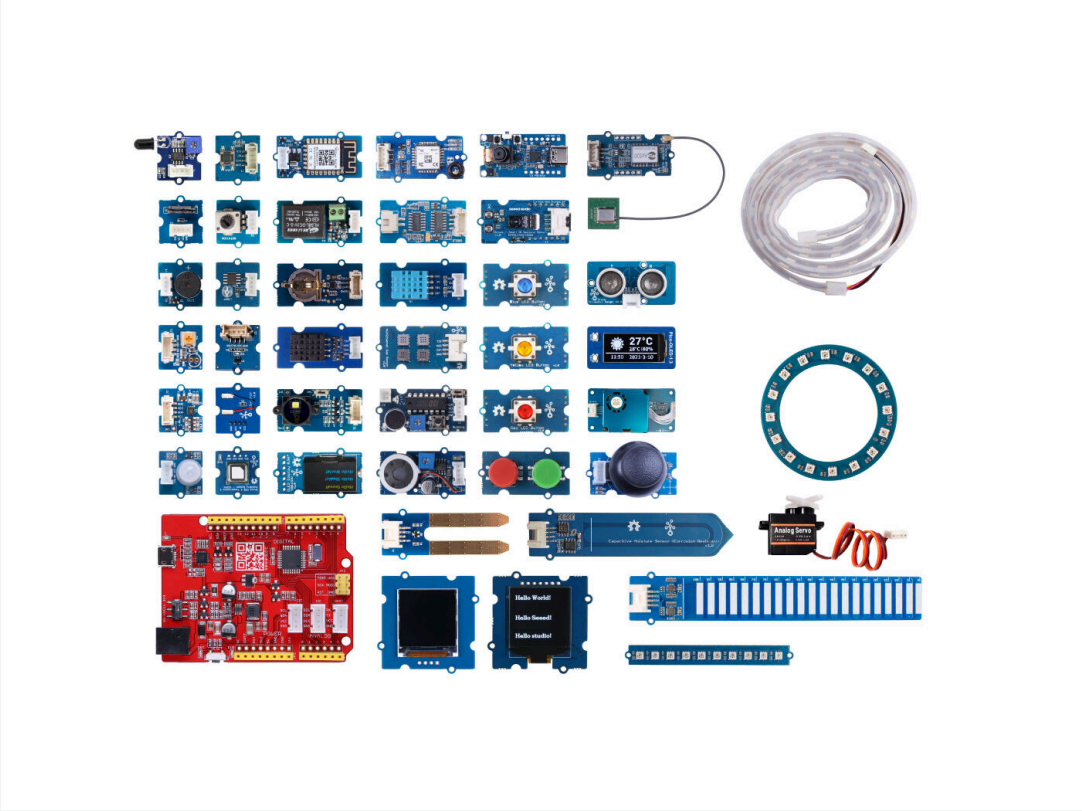
# Overview



The Grove Selectable Creator Kit offers one-click ordering for the exact mod you need, with 6 Actuators, 12 Inputs, 7 LEDs, 27 Sensors, 10 Displays, and 4 Communication Modules, along with detailed free tutorials and rich community projects. It features well compatibility with Raspberry Pi and Arduino programming, and Edge Impulse provides full support to Grove-Vision AI for building and training machine learning models, making it suitable for Smart Home, Robotic, Wearable, Enviroment Monitoring System, Tracker, Object Detection, and Sound Classification applications.

# Key Features

- **One-click order for the specific mod you need:**Includes 6 Actuators, 12 Inputs, 7 LEDs, 27 Sensors, 10 Displays, and 4 Communication Modules
- **Beginner-friendly Tutorials:**Provide detailed and free tutorials for each module**(Search products in Seeed Wiki)**; Rich community projects for inspiration
- **Well compatibility:**Support Raspberry Pi and Arduino programming; **Edge Impulse** provides full support to Grove-Vision AI for building & training machine learning models

# Applications

- **Smart Home**
- **Robotic**
- **Wearable**
- **Enviroment Monitoring System**
- **Tracker**
- **Object Detection**
- **Sound Classification**
