RF Explorer®

RF EXPLORER PRO

SPECTRUM ANALYZERS

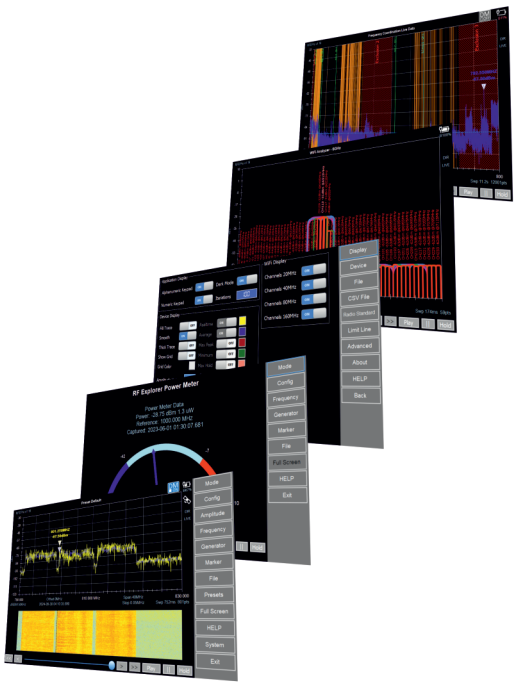
Advanced 3rd generation professional product line with high resolution touchscreen, offering multimode functionality. Including: Power Meter, Cable Tester, Tracking Generator and Frequency Coordination for Wireless Audio.

More Details at www.rf-explorer.com

SPECIFICATIONS

FREQUENCY RANGE	**15MHz to 3.3GHz** baseline **15MHz to 6.1GHz** license 6G **15MHz to 7.5GHz** license 7G **100KHz – 240MHz** additional range
DYNAMIC RANGE	**Direct:** -110dBm to +10dBm **Preamplifier LNA**: -130dBm to -30dBm **Attenuator**: -80dBm to +33dBm

FREQUENCY STABILITY	TCXO ±0.5ppmrange
SIGNAL GENERATOR/TRACKING RANGE	**24MHz to 6GHz** shared license with spectrum analyzer mode
WIDEBAND POWER METER RANGE	**10MHz to 8GHz** no license required
SWEEP TIME	280ms



- Cable Tester and Tracking Generator SNA
- RF Power Meter and instantaneous measurement
- Wideband Touchscreen Multipurpose Instrument
- RF Spectrum Analyzer with Frequency Coordination
