Overview

reTerminal Sticky is a shared, low-distraction ePaper display for family notes, reminders, chores, weather, time, and photos, with touch interaction, AI voice input in six languages, and remote management through the Seeedash app. It can be placed magnetically throughout the home and, with a simple firmware swap, becomes a pocket-sized e-reader (CrossPoint, CrossInk, CrossMux, or EDC Book), a personal dashboard (TRMNL or Tesserae), or a smart Home Assistant control panel (ESPHome or OpenDisplay).

Key Features

Note:

- **6 languages**, including English, Simplified Chinese, German, French, Spanish, and Dutch, are currently officially supported, with more languages coming soon. For the latest updates on Sticky, please visit our [landing page](#).
- **Welcome to join our Facebook Community** to discover creative use cases, explore community projects, and take part in regular giveaways!
- Need more storage? Our **32GB SD card kit** unlocks CrossPoint, CrossInk, and more custom firmware — fully tested for compatibility on Sticky.
- **Matte Screen Update:** All Sticky units shipped from the new batch onward will feature a **matte** ePaper screen from late **October 2026**.

A Family Note Everyone Can See

A calm display for the little things that keep your family connected. It's a shared low-distraction device for reminders, chores, or a simple "thinking of you" note—placed right where your loved ones pass by. Note, weather, time, and a rotating photo appear naturally, adding warmth without clutter. What matters always gets seen.

Speak, Stick, and See It Instantly

Press, speak, and let Sticky turn it into the content you want instantly, easy for everyone at home to use it. AI transcript what you speak in your natural language, recognize your intent and shows it right on the display (Currently, only English, Simplified Chinese, German, French, Spanish, and Dutch are officially supported). Then you can stick it to the corner where the message matters the most, ready for your family to see it in their daily routines.

Manage Your Sticky Anywhere with the Seeedash App

Use the Seeedash mobile App to manage your devices remotely and update content on the fly. Add a reminder or leave a surprise photo – all from your phone, and it shows up on the Sticky instantly for your family to see. For more creative control, use [Seeedash Web](#) to customize and deploy your content. Stay connected even when you're miles away.

Magnetic and Place It Every Corner at Home

Slim, magnetic, and easy to place, Sticky fits naturally wherever family life happens from the fridge and kitchen to the entryway. Place Sticky throughout your home to create a distributed family command center, keeping reminders, messages, and everyday updates visible exactly where they matter the most. No bulk. No clutter. No complicated setup.

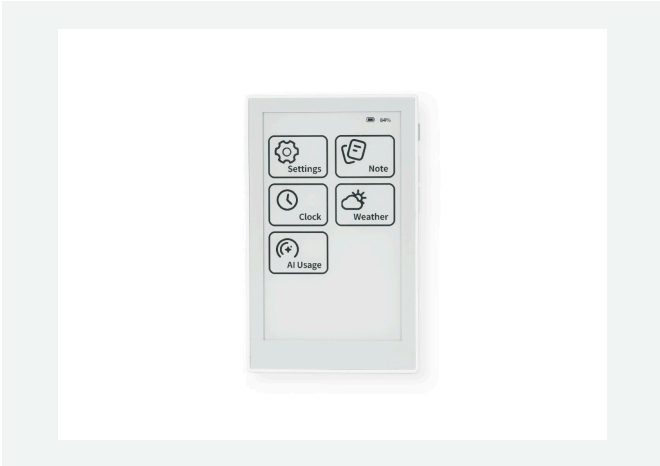

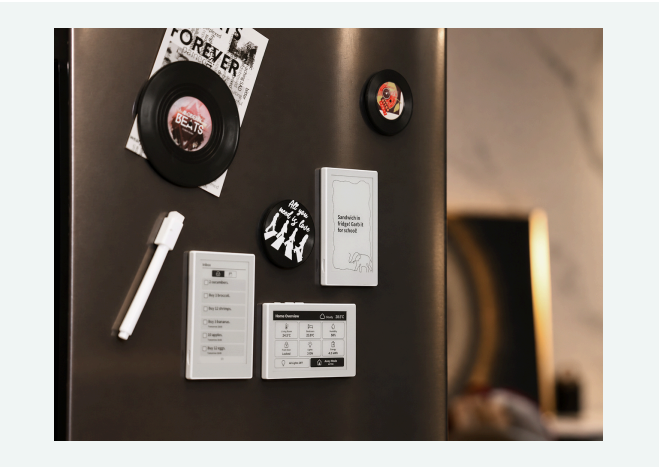

Seamless Touch Interaction on a Home-Friendly ePaper Display

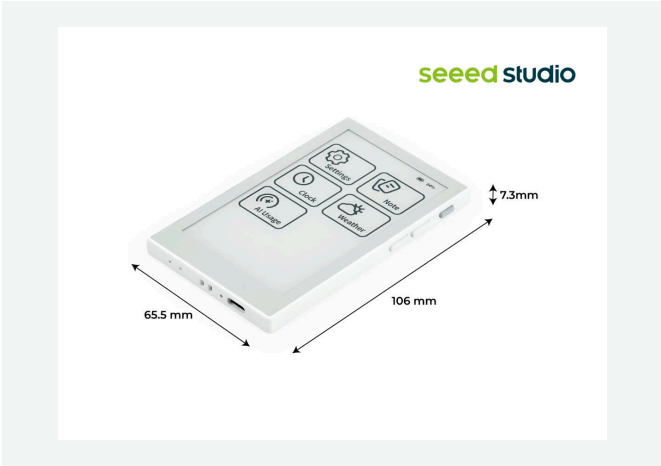

Power-efficient, distraction-free, touch-responsive ePaper display that fits naturally in your home. Effortless to read, with no backlight, it quietly stays out of the way when you don't need it. Interact with a simple touch—the display reacts instantly, making information easy to check and control at a glance.

Endless Possibilities, More Than an AI Sticky Note

Sticky starts as a family note display, but it doesn't stop there. With [a simple firmware swap](#), it can become a pocket-sized e-reader with [CrossPoint](#), [CrossInk](#), [CrossMux](#), [CrossLink Pixel](#), or [EDC Book](#); a personal dashboard powered by [TRMNL](#) or [Tesseract](#); or a smart [Home Assistant](#) control panel with [ESPHome](#) or [OpenDisplay](#)—all on the same device. The possibilities are endless, and the choice is yours.

Applications

- **Family Notes:** Keep everyone at home informed and connected with visible notes, reminders, and messages placed where they matter most.
- **To-Do Lists:** Keep track of daily tasks, shopping lists, and little things you don't want to forget—all in one place, always within sight.
- **Smart Home Control:** See your home status at a glance and control connected devices with a tap—without reaching for your phone or computer.
- **Personal Assistant:** Bring weather, time, reminders, and everyday information out of your phone and into view on a calm, low-distraction ePaper display.
- **Pocket E-Reader:** Turn Sticky into a pocket-sized e-reader with CrossPoint, CrossInk, or CrossMux firmware. Carry your favorite books wherever you go and enjoy distraction-free reading time.
- **Distraction-Free Writing:** Pair Sticky with a Bluetooth keyboard to capture ideas, jot down thoughts, and focus on your words without unnecessary distractions.
- **Mini Games & Entertainment:** Take a quick break with 2048, puzzles, flashcards, and touchscreen games through community firmware like CrossPlay, Sticky 2048, and Sticky Arcade.
- **DIY & Creative Projects:** Make Sticky your own with 3D-printed cases, custom stands, and community-built firmware—giving it a new look or a whole new purpose.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy.

If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
