Applications

- **Low-power color electronic photo frame::** With SenseCraft HMI or the App, you can easily upload a series of photos from your album remotely online. Combined with a large, high-resolution color e-ink screen, it achieves ultra-low power image display, no longer have to worry about battery life.
- **Family Information Board::** Displays colorful images or photos, keeps track of calendars, notifications, weather, or news, serving as a stylish and energy-efficient information display board.
- **Smart Office Displays:** Show meeting room availability, office schedules, or directional guidance in low-power, always-on ePaper displays.
- **Retail & Public Information Displays**
- **Low-power ePaper signs for menus, schedules, or occupancy indicators with long battery life.**
