INDUSTRIAL PRODUCT DATASHEET

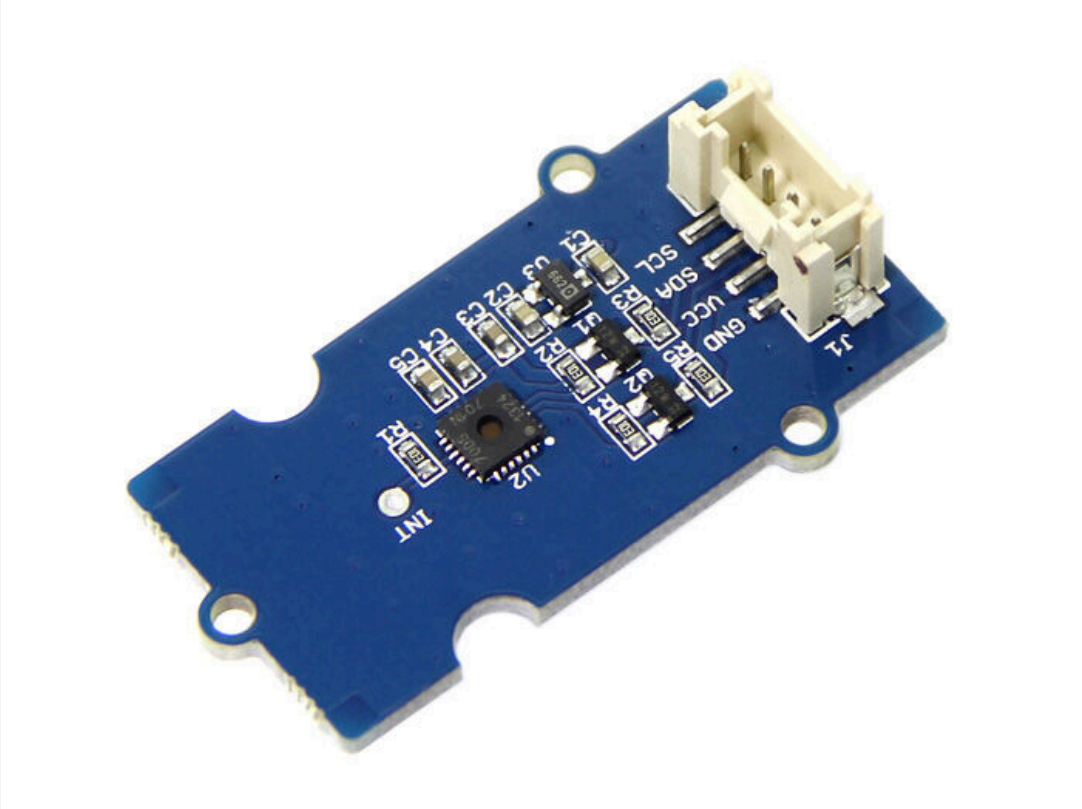

Grove - Temperature&Humidity Sensor (High-Accuracy & Mini)

The Grove - Temperature&Humidity Sensor (High-Accuracy & Mini) supports temperature and humidity sensing for industrial HVAC/R, thermostats/humidistats, micro-environments/data centers, weather stations,...

SKU	UPDATED	PRICE
101020074	2026-11-03 03:59:39	$12.70(Excl. VAT)

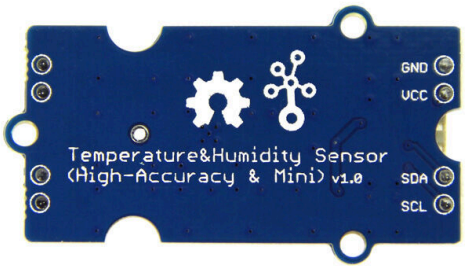

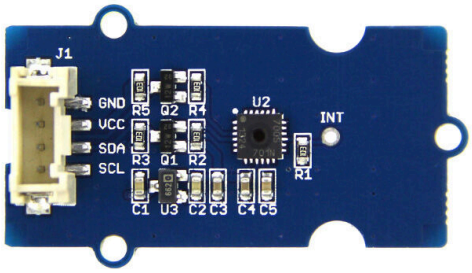

Overview

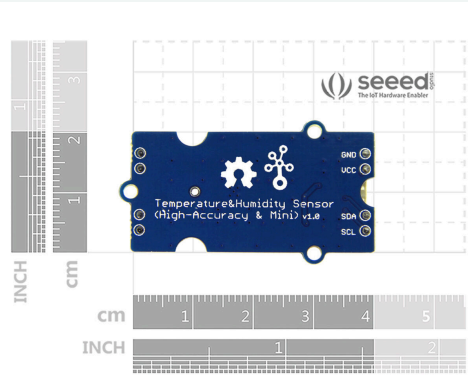

The Grove - Temperature&Humidity Sensor (High-Accuracy & Mini) is designed for temperature and humidity sensing applications. It is suitable for industrial HVAC/R, thermostats/humidistats, micro-environments/data centers, weather stations, automatic control, and testing and inspection equipment.

Applications

- Industrial HVAC/R
- Thermostats/humidistats
- Micro-environments/data centers
- Weather station
- Automatic control
- Testing and inspection equipment
