INDUSTRIAL PRODUCT DATASHEET

Dragino LoRaWAN Water Leak Sensor - EU868MHz

A compact, long-range LoRaWAN water leak sensor with 1-year battery life, perfect for smart agriculture, industrial monitoring, and smart city deployments.

SKU	UPDATED	PRICE
101990651	2025-07-30 08:09:08	$15.00(Excl. VAT)

Overview

The Dragino LoRaWAN Water Leak Sensor - EU868MHz (64x30x14mm) features an SX1262 LoRa core and LoRaWAN v1.0.3 Class A protocol for long-range, low-power water leak detection. It is ideal for applications in smart agriculture, industrial monitoring, smart buildings, smart cities, and smart factories, with a 1-year CR2032 battery, AT command configuration, and firmware upgrade via program port.

Key Features

- Compact Size (64x30x14mm) for Easy Deployment
- Latest version of LoRaWAN v1.0.3 Class A
- SX1262 Long-Range Low-Power LoRa Core
- 1 year Long Lasting CR2032 Battery for Easy Replacements
- Conveniently Change Device Parameters via sending AT Commands
- Periodically Transmit Sensor Data and Water Leak Events
- Easily Connect to a Computer and Upgrade the Firmware via Program Port

Applications

- **Smart Agriculture**
- **Industrial Monitoring and Control**
- **Smart Buildings**
- **Smart Cities**
- **Smart Factory**
