Overview

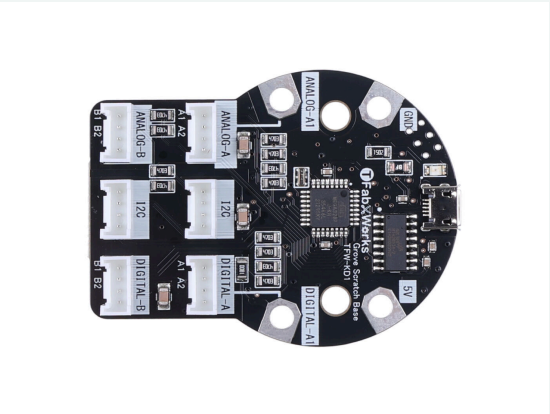

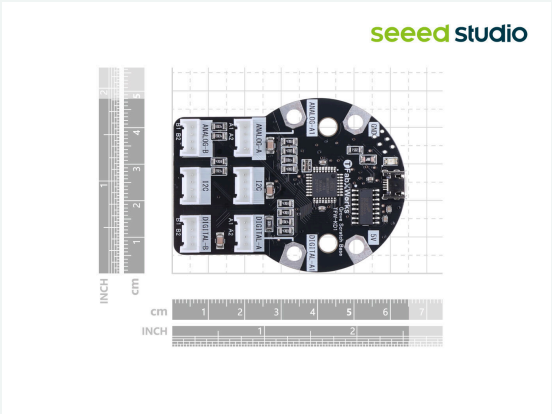

Grove for Scratch, featuring AkaDako with WebSerial, eliminates app installs and Bluetooth pairing, providing direct USB-powered connectivity. Its diverse Grove ports enable simultaneous use of various Grove products, making it ideal for AI, smart home, education, and IoT applications.

Key Features

- **No need to install the app：** No need to install the Scratch Link app, AkaDako is built in the WebSerial function, so it can be used with existing browsers out of the box
- **Easy to use:** AkaDako does not require an external battery and can be powered by connecting it to a computer via USB.
- **No pairing required:** No Bluetooth pairing is necessary with AkaDako because it is a USB connection, unlike Scratch Link. Simply plug it in and you're ready to go.
- **Diversification:** Grove for Scratch offers a wide variety of Groves' ports, allowing users to simultaneously use a variety of Grove products to generate virtually endless possibilities.
