Overview

This module is based on 2-Coil Latching Relay. Contrast to the ordinary relay, this latching relay does not need continuous power to keep the state, only a rising/falling pulse is needed to change the work state.

Key Features

01 **Energy efficiency**

Coils do not need to be energised all the time, helping to reduce power consumption in application circuits

02 **Dual Switch**

Single side stable and latching type available.

03 **Grove unified socket**

The product ensures "Plug and Play" and could be versatile for various applications.

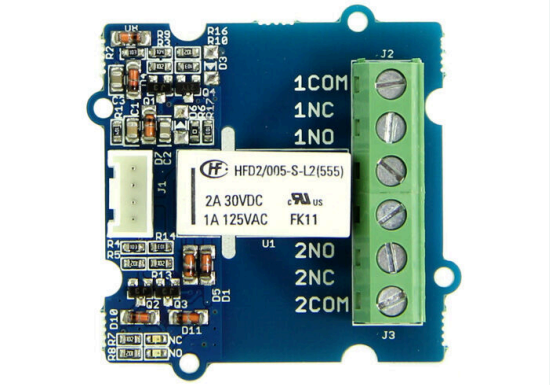

04 **High sensitive**

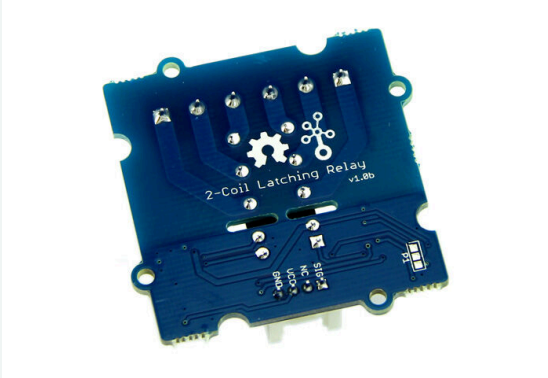

Up to 150mW

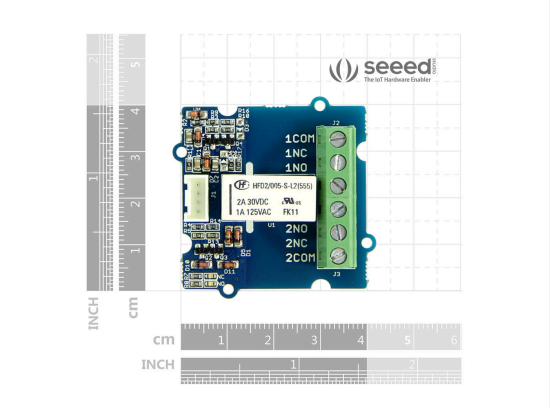

05 **High switching capacity**

125VA/90W
