Overview

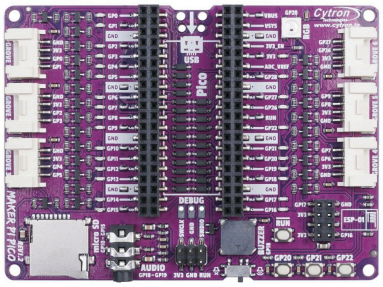

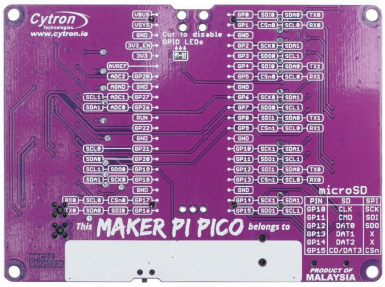

The Maker Pi Pico Base (without Raspberry Pi Pico) is a ready-to-use breakout board that provides access to all Raspberry Pi Pico pins via two 20-way pin headers, requiring no soldering. It features LED indicators on every GPIO, three programmable push buttons, an RGB NeoPixel LED, a piezo buzzer, a 3.5mm stereo audio jack, a micro SD card slot, an ESP-01 socket, and six Grove ports, making it ideal for rapid prototyping, wearable devices, and intelligent control.

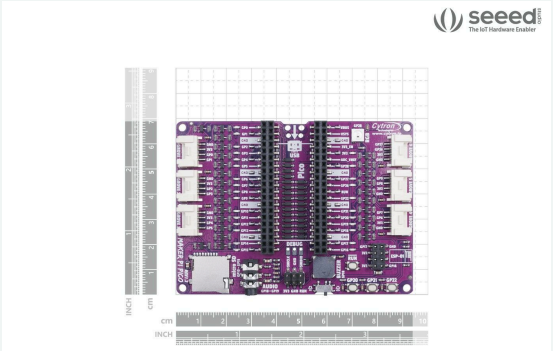

Key Features

- Work out-of-the-box. No soldering!
- Access to all Raspberry Pi Pico's pins on two 20 ways pin headers
- LED indicators on all GPIO pins
- 3x programmable push button (GP20-22)
- 1x RGB LED - NeoPixel (GP28)
- 1x Piezo buzzer (GP18)
- 1x 3.5mm stereo audio jack (GP18-19)
- 1x Micro SD card slot (GP10-15)
- 1x ESP-01 socket (GP16-17)
- 6x Grove port

Applications

- **Rapid prototyping**
- **Wearable devices**
- **intelligent control**

Part List

- 1 x Maker Pi Pico
