INDUSTRIAL PRODUCT DATASHEET

Grove Shield for Arduino Nano v1.3

Grove Shield for Arduino Nano provides you a simple way to connect with Arduino Nano and also Seeeduino Nano.

SKU	UPDATED	PRICE
103100124	2026-11-11 08:12:46	$2.90(Excl. VAT)

Overview

Grove Shield for Arduino Nano provides you a simple way to connect with Arduino Nano and also Seeeduino Nano.

Key Features

01 **Easy to use**

Plug the expansion board into the Arduino Nano or Seeeduino Nano and use it directly.

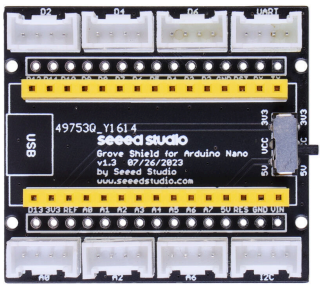

02 **Numerous interfaces**

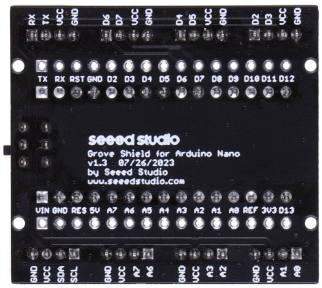

It expands to 8 Grove connectors, including 3 Grove digital connectors, 3 Grove analog connectors, 1 Grove I2C connector, and 1 Grove UART connector.

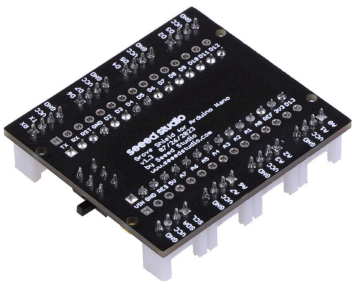

03 **Grove unified socket**

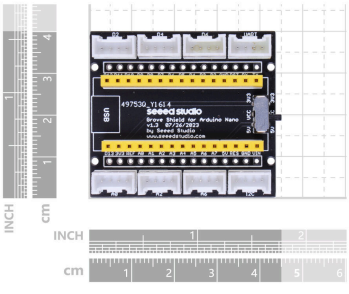

The shield ensures "Plug and Play" and could be versatile for various applications.
