INDUSTRIAL PRODUCT DATASHEET

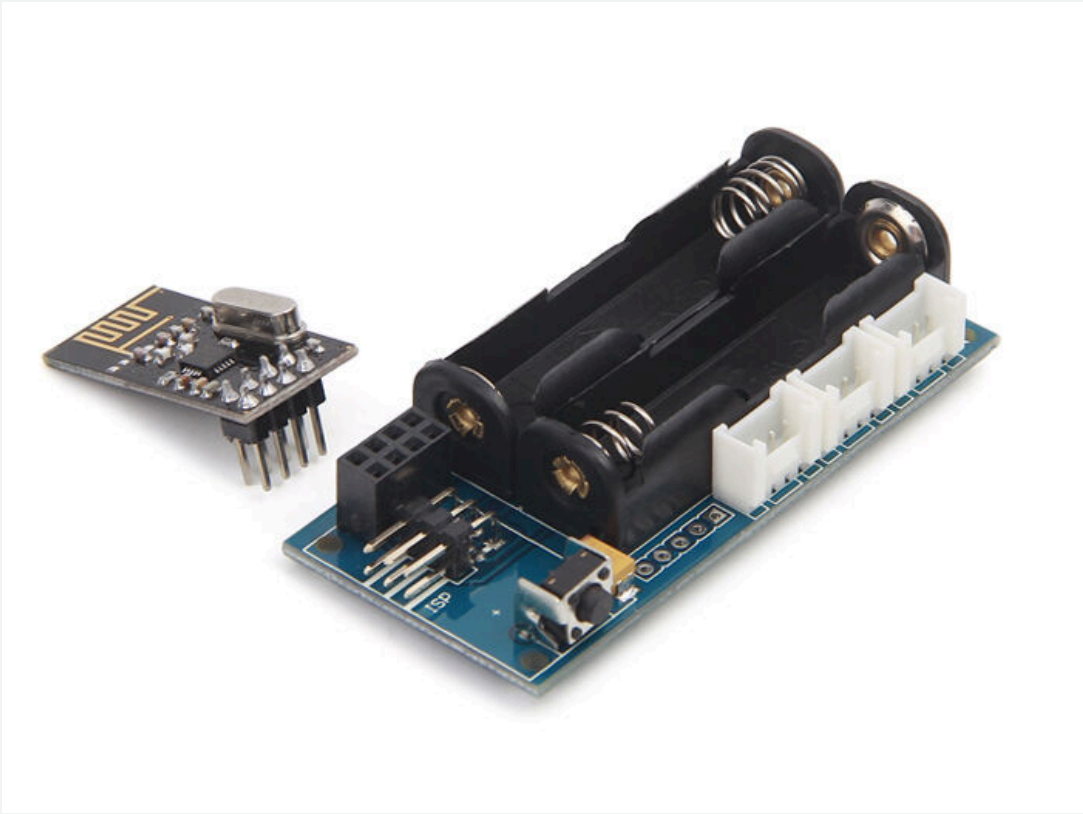

DevDuino Sensor Node V2.2 (ATmega 328)

DevDuino Sensor Node V2 is a compact Arduino-compatible microcontroller and is designed to build wireless networks based on transceiver nRF24L01+

SKU	UPDATED	PRICE
103990103	2026-11-11 07:27:22	$17.99(Excl. VAT)

Overview

DevDuino Sensor Node V2 is a compact Arduino-compatible microcontroller and is designed to build wireless networks based on transceiver nRF24L01+
