INDUSTRIAL PRODUCT DATASHEET

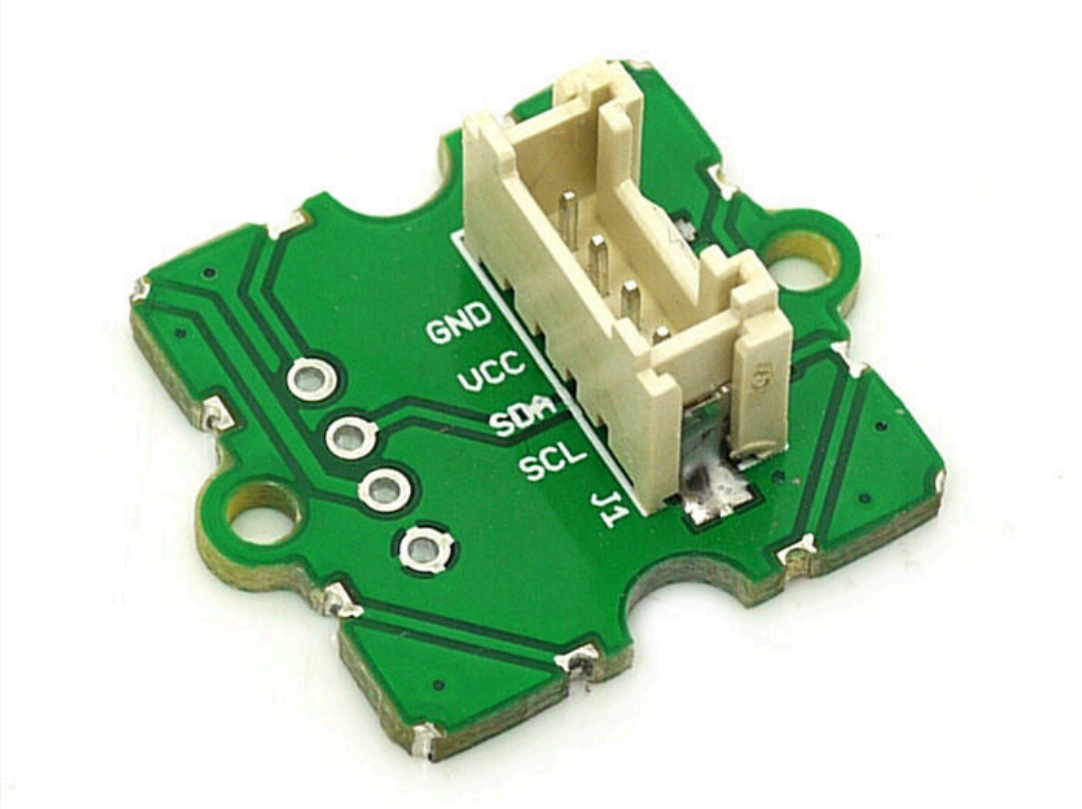

Grove - BlinkM

Grove-compatible adapter for BlinkM/MinM I2C smart LEDs with press-fit header holes, suitable for RGB LED matrix decoration.

SKU	UPDATED	PRICE
104020003	2024-08-09 02:12:45	$2.90(Excl. VAT)

Overview

The Grove - BlinkM is an adapter that converts BlinkM or MinM I2C smart LEDs to the Grove interface, ensuring compatibility with the Stem - Base Shield. It features press-fit header holes for easy, solderless attachment of BlinkM or MinM modules and is ideal for RGB LED matrix decoration applications.

Key Features

BlinkM Twig is made for ThingM I2C smart LED.The press-fit header holes in the BlinkM shield make the BlinkM or MinM press-fit onto the Twig, and compatible with our Grove system. It is like an adapter to convert BlinkM/MinM to our grove interface so that it can use by our Stem - Base Shield.

Features

- Grove compatible
- Press-fit header holes

Application Ideas

- RGB LED Matrix
- Decoration

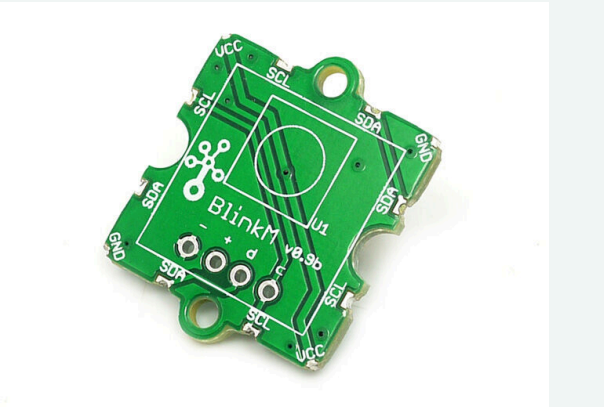

Please note that the LED shows in picture is not included.

For all Grove users (especially beginners), we provide you guidance PDF documents. Please download and read through Preface - Getting Started and Introduction to Grove before your using of the product.
