Overview

Grove - 16 x 2 LCD is a perfect I2C LCD display for Arduino and Raspberry Pi with high contrast and easy deployment.

Key Features

01 **High quality display panel**

Using STN panel, which is high yield, relatively inexpensive, and ideal for use in scenarios with strong and fast response times for screen transitions.

02 **Accommodates a large number of characters**

The display construction is 16 Characters * 2 Lines.

03 **Multiple language support**

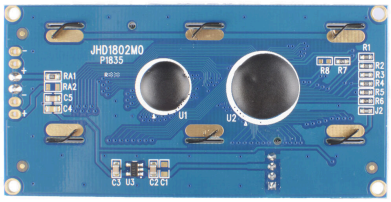

Including English Japanese and Greek alphabet.

04 **Grove unified socket**

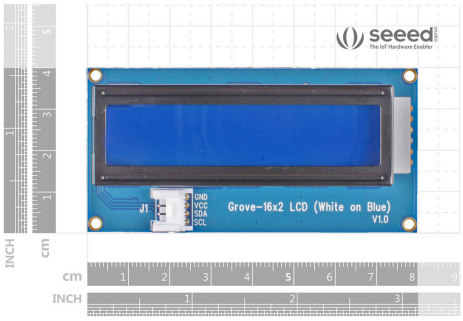

The product ensures "Plug and Play" and could be versatile for various applications.

Product Gallery

Applications
