Overview

The Grove-circular LED is a circular shaped lamp circle with 24 LEDs and about 5.5 mA drive current for each channel, which could make controllable LEDs with florid effects Grove Interface.

Key Features

01 **Perfect lamp circle display**

Equipped with 24 LEDs around the circular board to meet the circular light show

02 **Multiple variations of water lamp**

Through our library files can practice a variety of patterns for water lamp

03 **Compatible with Raspberry PI and Arduino**

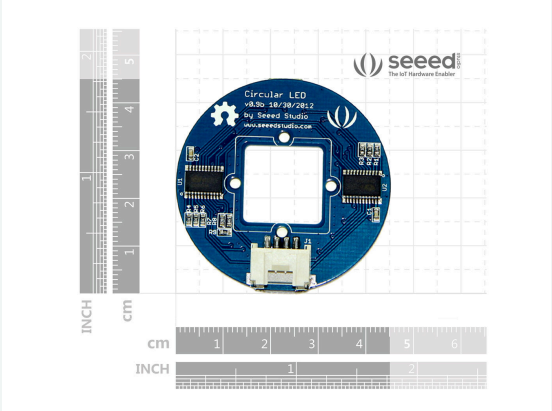

The Grove series is compatible with Raspberry Pi and Arduino, which will make it easier to run on

04 **Grove unified socket**

The product ensures "Plug and Play" and could be versatile for various applications
