INDUSTRIAL PRODUCT DATASHEET

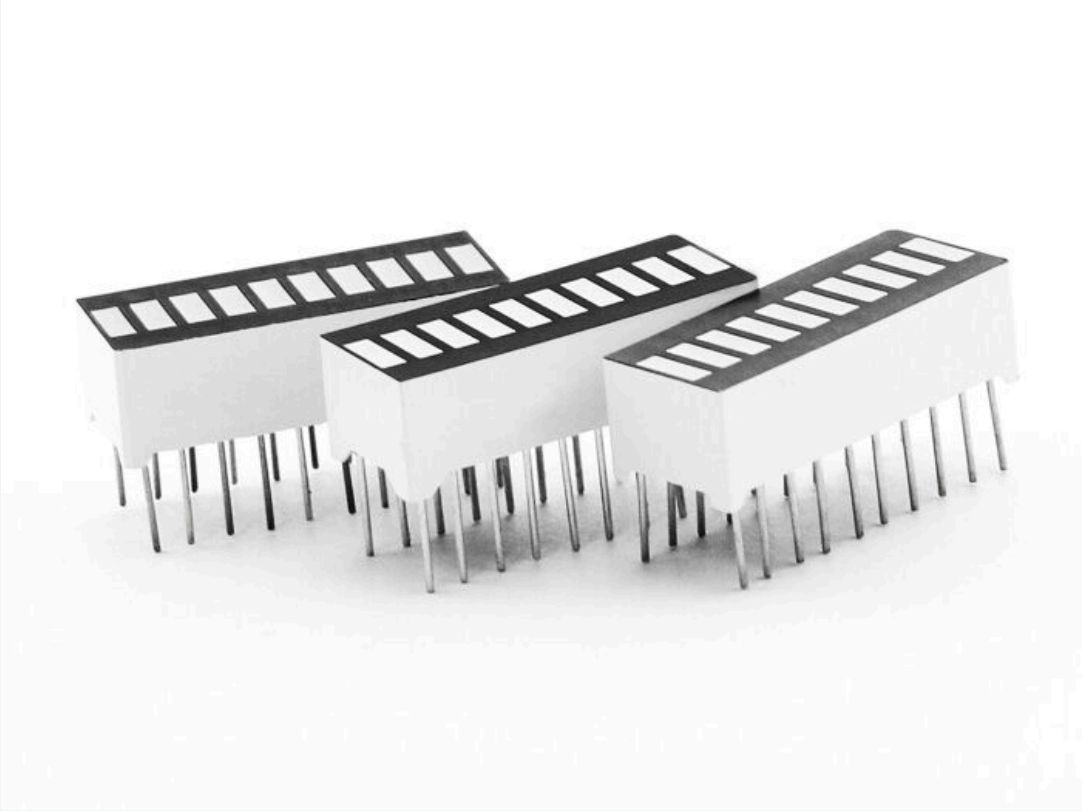

10 Segment LED - Green

10 Segment LED - Green: A 10-segment green LED bar for prototyping, featuring high intensity and low power.

SKU	UPDATED	PRICE
104990108	2024-08-09 01:56:54	$1.45(Excl. VAT)

Overview

The 10 Segment LED - Green is a bar of 10 green LED segments without a control chip, suitable for prototyping and breadboard use. It delivers high intensity and reliability with low power consumption, IC compatibility, easy assembly, RoHS compliance, and ESD protection of 2000V.

Key Features

Description
This is a segment LED bar without control chip. It has 10 segment LEDs, color is Green.

It is compatible with bread board and can work with Arduino by adding some current limiting resistors. The 10 segment LEDs have many uses, such as make protype.

If you would like segment LED gauge bar, look at **here**

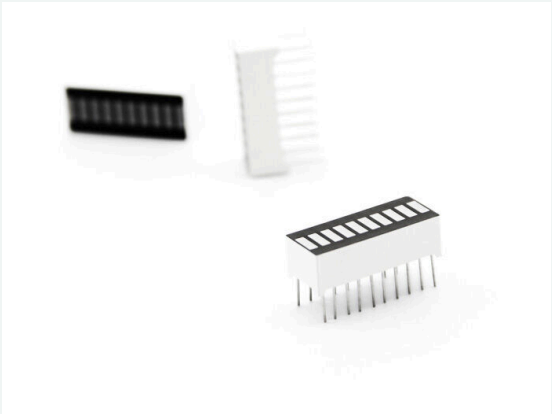

Features:
High intensity and reliability
High quality, Low power requirement and low cost
IC compatible , Easy assembly
Meet RoHS EU Directive
ESD (HMB)2000V

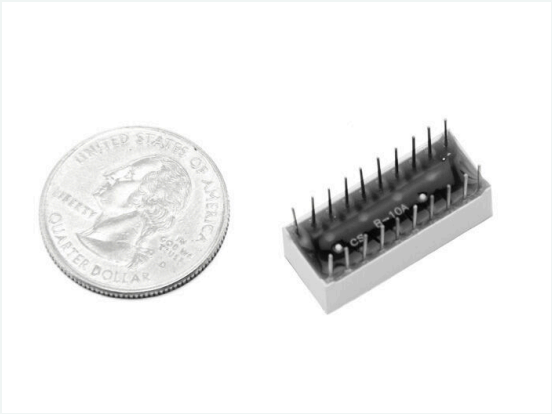

Specification:

Part List：
1 x segment LED bar
