# Overview

Grove Passive Buzzer is a low cost tunable passive buzzer.

# Key Features

**01** **Passive buzzer with wide compatibility**

The sound frequency is controllable, and power consumption is small. Applicable to electronic watches, pocket calculators, electronic doorbells and electronic toys.

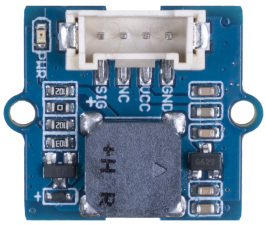

**02** **Low power consumption**

It is driven by voltage, so the current consumption is small, generally under 20mA, not more than 100mA.

**03** **Easy to use**

compatible with Grove port, just plug-and-play
