The 6V Mini Water Pump is a lightweight, self-priming pump offering high efficiency, low consumption, and low-noise operation. It is widely used in household tasks like cooking, cleaning, bathing, space heating, and watering flowers, operating at 4V-12V with a 0.8A current draw.

Key Features

Description
This is lightweight, small size, high efficiency, low consumption and low noise water pump.

It has been used widely, in household include cooking, cleaning, bathing, space heating and water flowers, etc.

Note: Please do not test long time with no-load, inside is with plastic leaves, can't suction impurity.

Feature:

self-priming pump

Optimal For Voltage: 6V

Specification：

Working Voltage: 4v-12V

Working Current: 0.8A

Motor Diameter: 27mm

Water Pump lenght: 52mm

Drain Hole: 4mm

Weight:147g

Part List:

1 x water pump
