INDUSTRIAL PRODUCT DATASHEET

RoboMaster GM6020 Brushless DC Motor

The RoboMaster GM6020 is a brushless DC motor with an integrated driver.

SKU	UPDATED	PRICE
108990060	2026-11-21 23:21:52	$189.00(Excl. VAT)

Overview

The RoboMaster GM6020 is a brushless DC motor with an integrated driver. The motor adopts a hollow shaft design that offers high torque density, control precision, flexible interaction methods, and intelligent protection. It is suitable for low-speed and high-torque direct drive application scenarios and is an ideal choice for robotics competitions, scientific research, education, automation applications, and more.
