Overview

Grove - Integrated Pressure Sensor Kit (MPX5700AP) is made for measuring pressure in the range of 15Kpa to 700Kpa, which is perfectly suitable for making your own Arduino air pressure measurement system.

Key Features

01 **Widemeasure range**

2.5% Maximum Error over 0° to 85°C

02 **Multiple configurations**

Available in Absolute, Differential and Gauge Configurations

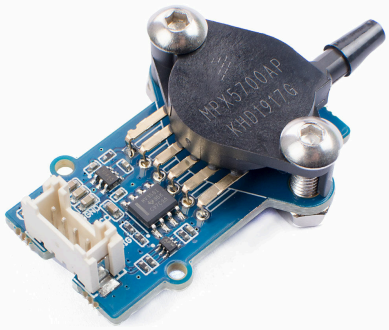

03 **Good durability**

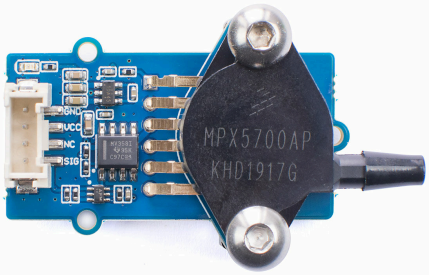

Durable Epoxy Unibody Element

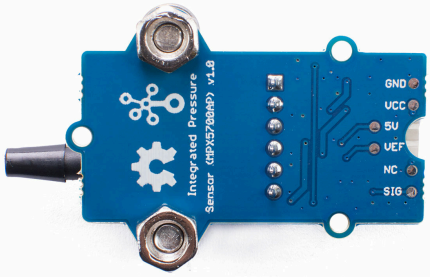

04 **Grove compatible interface**

The product ensures "Plug and Play" and could be versatile for various applications of Grove
