Overview

This molded enclosure for Cubieboard features frosted plates and a slide-open top for easy access to SATA power and data sockets. It provides a seamless fit with precisely routed ports and side markings.

Key Features

Description
This is a molded enclosure for Cubieboard that has frosted plates. It fits perfectly for Cubieboard by routing out all ports seamlessly and having marks aside. The top plate slides open so that you can use the SATA power and data sockets.

Through this enclosure, you can vaguely see the guts. It has a sister version that colored white and black. Check out to find which one you prefer.

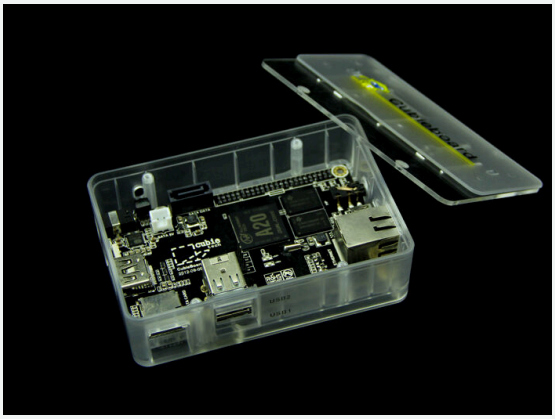

Features

- Slide to open
- Smoothly fit
