Overview

The Crazyflie Nano Quadcopter - 4 x CW+CCW spare propellers (BC-CWP-01-A and BC-CCWP-01-A) is a spare kit pack containing two sets of CW+CCW propellers designed for quick and easy replacement. The propellers are 3D printed for better adaptation, durable and unbreakable for maximum efficiency and reduced wear.

Key Features

- **Spare Kit Pack:** The pack contains two sets of CW+CWW propellers for you to replace.
- **3D printing:** Propellers are better adapted to your drone using 3d printing technology
- **Take off at any time without worry:** No more worries about damaged propellers preventing you from taking off
- **Easy to install:** Allows for quick and easy replacement in the event of damage or wear and tear.
- **Durable and unbreakable:** Designed for maximum efficiency and performance, which helps to reduce wear and tear on the blades.

Specification

Items	Specification
Size	45 mm
Fits shaft	0.8 mm

Applications

- **quadcopter:** The Crazyflie 2.1 is a versatile open-source flying development platform that only weighs 27g and fits in the palm of your hand. It's not only a good flyer, the Crazyflie 2.1 is also equipped with low-latency/long-range radio as well as Bluetooth LE. This gives you the option of downloading our app and using your mobile device as a controller or, in combination with the Crazyradio PA, using your computer to display data and fly with a game controller.

Part List

CW propeller	×4
CCW propeller	×4
