Overview

The SenseCAP T1000-E Charging Puck is designed exclusively for the T1000-E tracker, offering multi-scene fixation with inverted, desktop, and wall mounting. Its dual fixing solution uses screw holes or adhesive stickers, complemented by hidden cable routing and a lightweight 3D-printed body.

Key Features

Note:

This product only fits the **T1000-E tracker**. Due to the use of 3D printing technology, there may be slight differences between the images and the actual product.

- **Multi-scene Application** : Supports multiple angles of fixation (including inverted), adapting to a variety of scenes such as desktop and wall.
- **Dual Fixing Solution**: The back of the device is reserved for screw holes, which can be suspended from screws; it can also be directly adhered to a flat surface using adhesive stickers.
- **Hidden Cable Routing**: Internal integrated cable slot design, charging cable leads from the top to avoid clutter and maintain a minimalist appearance.
- **Lightweight Construction** : 3D printing process realizes a lightweight body, combining durability and minimalist style.
