Overview

The SenseCAP T1000-E Protective Meshtastic Case with Leather Keychain provides a custom-fit 3D-printed shell exclusively for the SenseCAP T1000-E Tracker (tracker not included), offering enhanced durability against scratches and minor impact. It includes a high-quality leather keychain with a secure snap and ring design and is easy to disassemble for charging, making it a portable and lightweight carrying solution for keychains, bags, or backpacks.

Key Features

Note:

This product only fits the T1000-E tracker. Due to the use of 3D printing technology, there may be slight differences between the images and the actual product. Additionally, this product does not include the T1000-E Tracker.

- Custom-fit 3D-printed shell designed specifically for the SenseCAP T1000-E Tracker
- High-quality leather keychain with secure snap and ring design
- Easy to assemble and disassemble for charging and device access
- Portable and lightweight, ideal for keychains, bags, and backpacks
- Enhanced durability to protect the tracker from scratches and minor impact
