Overview

The Sonoff ZBMini-Zigbee3.0-two-way smart switch is a ZigBee 3.0 device that supports multiple gateways, remote control, single/countdown timing, and retains physical switch control. It offers hands-free voice control via Alexa, Google, SmartThings, and Alice, features a miniature size for hidden installation behind wall switches, and uses the TI CC2652P core IC for stability.

Key Features

- **Support Multiple Gateways:** as long as the wireless protocol of the gateway is ZigBee 3.0, it can be connected to ZBMini.
- **Smart and Easy Control:** Can realize remote control, and single/ countdown timing.
- **Multiple Control Methods:** You can retain both the smart control (app) and the physical switch controlling is still retained. Of course, it is possible to turn on or off the lights upstairs or downstairs.
- **Hands-Free Voice Control：** Speak to Alexa or Hey Google, SmartThings, and Alice, and it will perform your command to turn on/off.
- **Miniature size & Easy Installation**: Its tiny size allows it to be hidden behind wall switches.
- **Powerful Core IC:** Equipped with CC2652P Core is the strongest chip in Zigbee networking produced by TI, with larger rom and more stability.
