INDUSTRIAL PRODUCT DATASHEET

# Solar Radiation Shield for Outdoor Sensor Protection-A10, Louver Box for Temperature, Humidity and Gas Sensors

A high-quality solar radiation shield, designed to shield sensors from solar radiation and precipitation, to ensure data accuracy.

# Overview

A high-quality solar radiation shield, designed to shield sensors from solar radiation and precipitation, to ensure data accuracy. It's applicable for different sensors, such as air temperature, humidity, barometric pressure, CO2, NO2, PM2.5, PM10, and other gas sensors.Outdoor temperature sensor housing is one of the most commonly seen user cases.

# Key Features

01 **Robustness, suitable for outdoor application scenarios**

02 **Effectiveness, shielding the sensors from solar radiation and reflection**

03 **Easy installation, mountable on flat and curved surfaces**

# Applications

- **Smart Agriculture**
- **Smart Cities**
- **Smart Buildings**
- **Weather Stations**
- **Other Environmental Monitoring Applications**
