Overview

Argon ONE M.2 is a Raspberry Pi 4 compatible case that is made with aluminum alloy and polished with a modern Space Grey finish for stunning aesthetics and functionality. It has a 30mm software-controllable fan and air vents for better cooling. Also, you can connect an SSD via the m.2 connector and therefore supports high-speed data transfers. This case has two full-sized HDMI ports and also has a built-in power button for safe shutdowns, reboots, and forced shutdowns. Furthermore, it has two power management modes and has programmable IR support.

Key Features

01 Sleek aluminum alloy enclosure

02 M.2 SATA SSD compatible with Key-B or Key-B&M

03 UASP supported for high-speed data transfers with Raspberry Pi 4

04 Two full-sized HDMI ports with 4K output

05 Two power management modes with automatic booting or “Always ON Mode”

06 Built-in power button for safe shutdowns reboots and forced shutdowns

07 Efficient passive cooling with the whole top part of the case being a heatsink

08 Built-in 30mm fan with software-controllable fan speed

09 Programmable IR support to the Raspberry Pi with streamlined options

10 All the connectors are located at the back for neat cable management

11 Plastic base for excellent Wi-Fi signal strength

12 Easy installation with magnetic removable top
