INDUSTRIAL PRODUCT DATASHEET

Aluminum Heatsink for Jetson Nano Module

Aluminum Heatsink for Jetson Nano Module delivers effective thermal management with a full aluminum alloy design, safe spring mounting, and easy installation for NVIDIA Jetson Nano Module.

SKU	UPDATED	PRICE
114992686	2026-09-07 02:49:34	$9.90(Excl. VAT)

Overview

The Aluminum Heatsink for Jetson Nano Module is fully compatible with NVIDIA Jetson Nano Module and provides essential thermal management to keep module temperatures low, avoiding overheating and throttling during high-performance computing. Its full aluminum alloy heatsink features a spring mounting interface to prevent excessive pressure on the module, with mounting holes and screws included for easy installation.

Key Features

- Fully compatible with NVIDIA Jetson Nano Module
- Essential for high-performance computing: Keeps module temperatures low to avoid overheating and throttling
- Effective thermal management: Full Aluminum Alloy Heatsink
- Safe for use: Spring mounting interface keeps excessive pressure off the Jetson Nano module
- Easy to install: Mounting Holes & Screws Included
