Overview

SenseCAP PoE splitter features industrial standard operating temp from -40℃ to +80℃ and supports 10/100/1000Mbps high data speed. It requires 44V~57V DC power input and provides 5V/12V output through a TypeC / DC female connector. PoE splitter enables hotspot without PoE (power on Ethernet) function to connect to the internet and power supply with a single Ethernet cable.

Key Features

01 **Perfect match for SenseCAP M1 Hotspot outdoor set-up, also suitable for other hotspots, including RAK, BobCat, Nebra, FreedomFi, SyncroB.it. MerryIoT, Kerlink, Heltec, MNTD, COTX helium hotspot, etc.**

02 **Supports 10/100/1000Mbps high data speed, ensuring good and stable internet connection in the various scenarios.**

03 **Industrial standard operating temp from -40℃ to +80℃, better heat dissipation with delicate metal high-quality enclosure.**

04 **Excellent performance and stability, your reliable mate in hotspot set-up and various IoT applications**
