Overview

This white-label LoRaWAN tracker integrates GPS, Wi-Fi, and BLE positioning along with temperature, brightness, and motion sensing—all in a compact, low-power form factor. Its neutral, brand-free design supports rapid customization of logos, packaging, and communication protocols, making it ideal for OEM integration, B2B applications, and pilot deployments such as IPO validation and proof-of-concept testing.

Key Features

01 **Seamless indoor and outdoor positioning**

02 **Months of battery after a single magnetic charge**

03 **Offline data storage up to 1000 records**

04 **White-label ready for rapid integration**
