Overview

The Card Tracker T1000-E Charger Accessory -- PCBA with 6 magnetic cables is a dedicated charging accessory that can power up to six T1000-E devices simultaneously via six 4-pin magnetic cables and a high-quality PCBA board. It supports customizable casing through the provided 3D shell file, and users must keep magnetic connectors apart to prevent attraction and potential short circuits.

Key Features

SAFETY NOTICE:

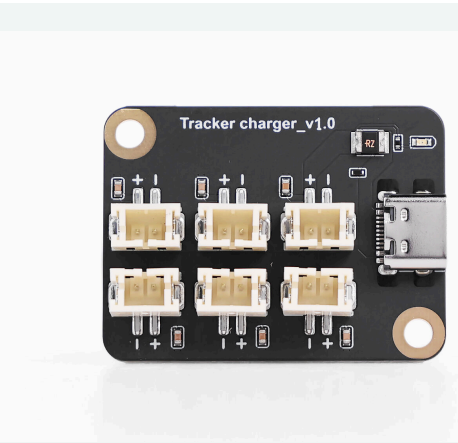

Magnetic connectors must be kept apart to prevent attraction and potential short circuits when in use.

- **Designed for T1000-E Devices**: A dedicated charging accessory that can power up to six T1000-E devices simultaneously, delivering an efficient and convenient charging experience.
- **PCBA Board Design**: Built with a high-quality PCBA board, offering structural stability for safe and reliable long-term use.
- **Multi-Cable Magnetic Connection**: Equipped with six 4-pin magnetic cables for quick, secure connections, enhancing charging efficiency.
- **Customizable Casing**: Allows users to design a custom casing using the provided 3D shell file to meet various usage needs.

Specification

Parameter	Specification
Input Voltage	DC 5V
Maximum Output Current	2A
Power Input Interface Type	Type-C
Power Output Interface Type	Magnetic 4-pin / 2.5mm pitch

Applications

- **Simultaneous Charging for Multiple T1000-E Devices:** With the casing added, it supports simultaneous charging for multiple T1000-E devices, reducing wait time for charging.

Part List

PBCA	x1
Magnetic cable	x6
