INDUSTRIAL PRODUCT DATASHEET

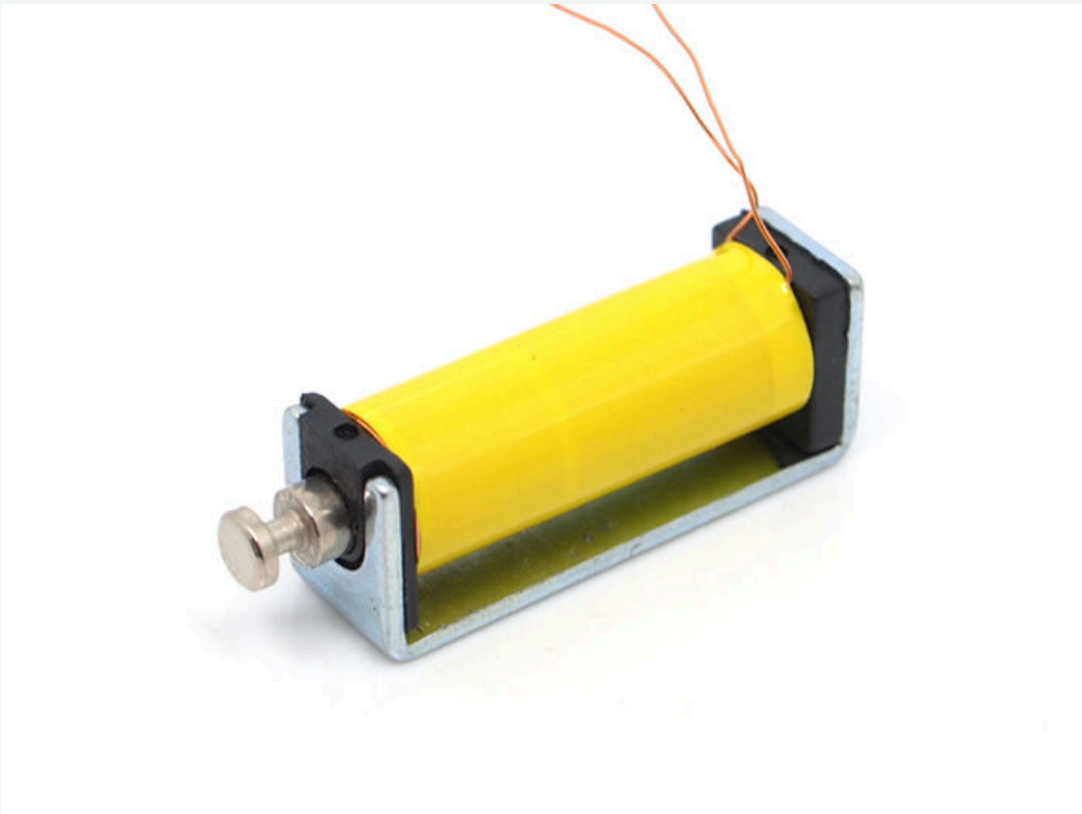

DC framework miniature solenoid VL-0063

The VL-0063 DC miniature solenoid offers instant, reliable actuation for diverse automation needs from vending to robotics.

SKU	UPDATED	PRICE

Overview

The VL-0063 is a 14.8-Volt DC framework miniature solenoid designed for instantaneous power work, featuring easy fixation and connection, low friction for high efficiency and long life, and a simple, reliable design. It is ideal for a wide range of applications including vending machines, office equipment, transport equipment, appliances, and industrial automation such as packaging machines and robotics.

Key Features

This 14.8-Volt DC framework miniature solenoid is for instantaneous power work and great for projects! These types of solenoid are often used for small automation system,can be used as a remote control etc. However, they work great for almost any project requiring a DC solenoid.

Features

- Easily fixed and connected
- Low friction to ensure high efficiency and extend the life of
- Simple and reliable design

Application Ideas

- Vending machines, ticket vending machines,money exchange machine
- Office equipment: fax machines, punch card machines, copiers, typewriters, cash registers, plotters
- Transport equipment: automatic door locks, safety belt lock, automotive solenoid valve, parking facilities
- Appliances: tape recorder, video recorder, keyboard, automatic knitting machine, karaoke machine
- Other: packaging machine, robot, farming equipment, stamping equipment, alarm, water solenoid valve

Operating conditions

- Operation temperature: -5°C to 40°C , the solenoid valve will not solidification.
- Operating humidity: 45% to 85%, the solenoid valve will not solidification.
- Storage temperature: -40°C to 75°C in between, the solenoid valve will not solidification.
- Storage Humidity: 0% to 95%, the solenoid valve will not solidification.

Documents

Please visit our **wiki** page for more info about this product. It will be appreciated if you can help us improve the documents, add more demo code or tutorials. For technical support, please post your questions to our **forum**.
