Overview

The Small Solar Panel 116x160mm 2.5W features a monocrystalline cell for high solar energy transformation efficiency. It has a waterproof resin surface and sturdy back for outdoor environments, and includes a 2mm JST connector for use with compatible solar power supply boards.

Key Features

- Made of single-crystal material (monocrystalline) that performs high solar energy transformation efficiency
- Small but able to provide enough power for your DIY projects
- A fine resin surface which makes it waterproof and a sturdy back suitable for outdoor environments
- A 2mm JST connecter is attached to the penal, which makes it perfect to team up with most of our can-use-solar-power-supply boards
