Overview

This small solar panel 80x100mm 1W is made of single-crystal material that performs high solar energy transformation efficiency. It has a fine resin surface and sturdy back suitable for outdoor environments.

Key Features

01 **Made of single-crystal material (monocrystalline) that performs high solar energy transformation efficiency**

02 **Small but able to provide enough power for your DIY projects**

03 **A fine resin surface which makes it waterproof and a sturdy back suitable for outdoor environments**

04 **A 2mm JST connecter is attached to the penal, which makes it perfect to team up with most of our can-use-solar-power-supply boards**
