Overview

The Power Adapter 3P-Black-19V-4.74A/5.5*2.5mm（without Power Cord) is designed for wide compatibility with reComputer Jeston, reComputer Mini, reComputer Industrial, reServer, and reServer Industrial, delivering stable power. It features a UL 94V-0 flame-retardant GE LEXAN 945(GG) housing, IEC 320 C6 AC receptacle with 3C certification, and a durable PVC DC output cable with 18-gauge UL 1571 wire and fork-type lock notch connector.

Key Features

01 **Wide Compatibility**

Specifically designed for reComputer Jeston, reComputer Mini, reComputer Industrial, reServer, and reServer Industrial, providing stable power supply for your devices.

02 **Reliable Quality**

The housing is made of GE LEXAN 945(GG) material that meets the UL 94V - 0 standard. It has a black appearance, outstanding texture, and flame - retardant properties.

03 **Safety Certification**

The AC receptacle complies with IEC 320 and C6 standards and has passed the 3C certification, ensuring safety.

04 **Interface Details**

The DC output uses a fork - type connector with a lock notch. The cable is a black PVC cable with 18 - gauge wire conforming to the UL 1571 standard, which is durable and stable.
