INDUSTRIAL PRODUCT DATASHEET

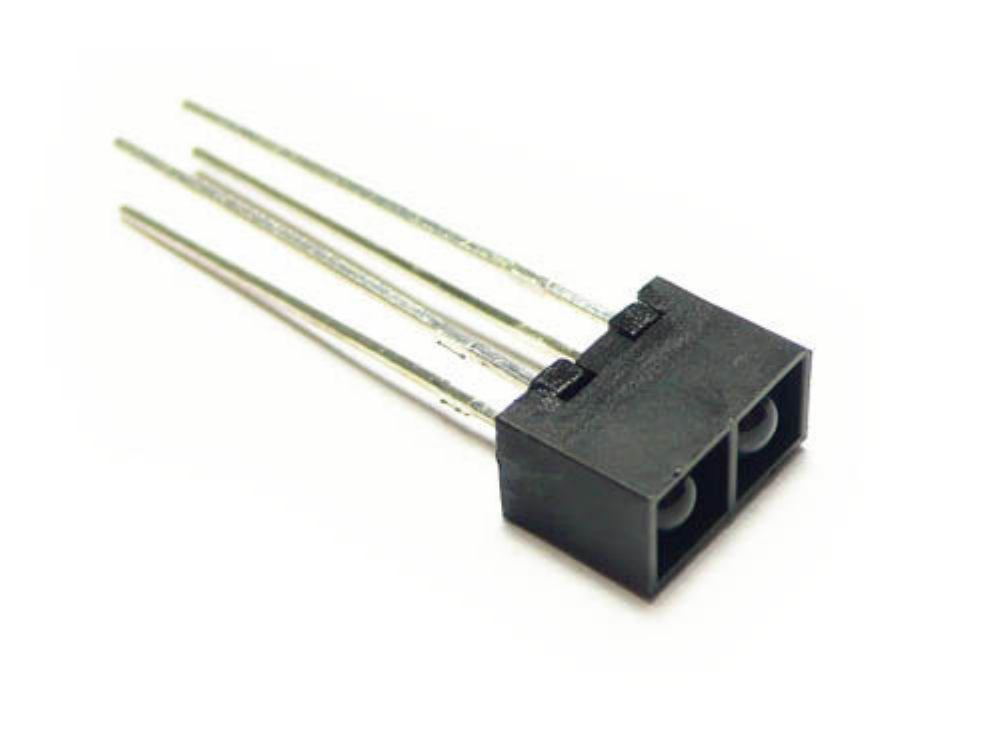

Photo Reflective Sensor

A compact, high-performance reflective sensor with GaA1As IR LED and Darlington phototransistor, ideal for timing, edge, micro floppy disc, and liquid level sensing.

SKU	UPDATED	PRICE
314020031	2026-04-09 12:18:36	$2.00(Excl. VAT)

Overview

This reflective sensor combines a GaA1As infrared light emitting diode with a high sensitive Darlington phototransistor in a mini package. It features compact design, high performance, high output, easy PCB mounting, and wide applicability.

Key Features

This is a reflective sensor combines a GaA1As infrared light emitting diode with a high sensitive Darlington phototransistor in a mini package.

Features

- Compact
- High performance
- High output
- Easy to mount on PCB
- Widely applicable

Applications

- Timing sensors
- Edge sensors
- Micro floppy disc drivers
- Level sensors of liquid
