INDUSTRIAL PRODUCT DATASHEET

Liquid Level Sensor for Water Level, Oil Level and Mild-corrosive Liquid Level Monitoring

The Liquid Level Sensor is designed with industry-grade standards, for monitoring water level, oil level, and other mild-corrosive liquid levels.

SKU	UPDATED	PRICE
314990619	2026-11-11 10:11:37	$79.00(Excl. VAT)

Overview

The Liquid Level Sensor is designed with industry-grade standards, for monitoring water level, oil level, and other mild-corrosive liquid levels. It incorporates stainless steel and insulated rubber, is IP68 rated, suitable for application in severe environments.

Key Features

01 **High-performance**

anti-interference and long-term stability

02 **Robustness**

anti-corrosion, durable and stable

03 **User-friendly**

anti-blocking design, easy to clean

04 **Widely-applicable**

0.5~4.5V transmission output, can work with digital displays, PLC, inverters, recorders and other instruments

05 **Industry-grade**

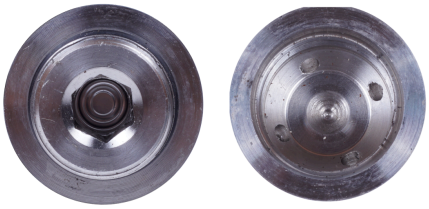

IP68 rating, durable and waterproof, suitable for outdoor severe environments

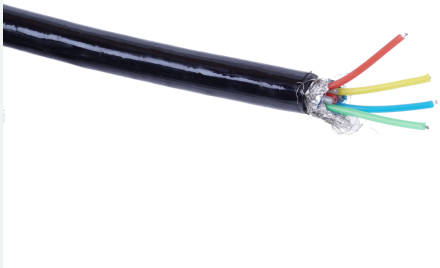

06 **Certifications**

FCC, CE, and RoHS

Product Gallery

Applications

- Reservoir detection
- Pool pump station
- River monitoring
- Marine monitoring
- Lake monitoring
- Sewage treatment
- Deep well level monitoring
- Tank level monitoring
