Overview

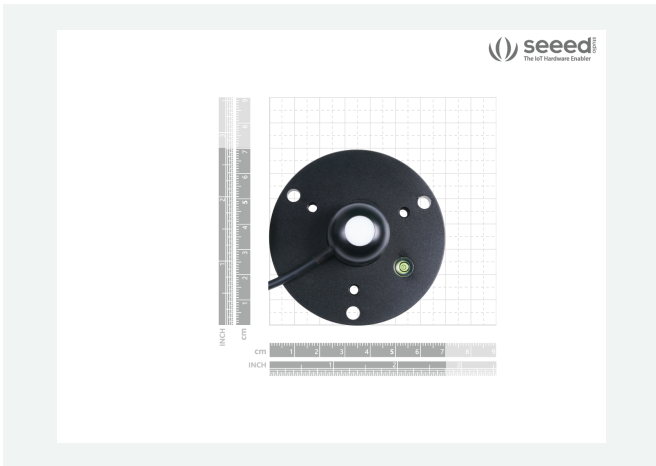

The Industrial PAR Sensor (S-PAR-02A) with MODBUS-RTU RS485 features compact size, simple installation, high accuracy, fast response, and superior stability, housed in an IP66 watertight and dustproof enclosure that operates from -30°C to 75°C. It supports universal MODBUS RS485 protocol for easy connection to data loggers and accepts a wide 5~24V DC power supply, with optional remote management via SenseCAP Portal and SenseCAP Mate.

Key Features

- **Easy To Use:** Compact size, simple installation, quick integration
- **High performance:** high accuracy, fast response, and superior stability
- **Strong Robustness:** It's watertight and dustproof with IP66 Enclosure, and can operate under a wide range of temperatures from -30°C to 75°C
- **Supports universal MODBUS RS485 protocol:** Can be easily connected to MODBUS-RTU RS485 data loggers.
- **Wide-range Power Supply:** Can be powered with supply voltage within 5~24V DC

Product Gallery

Applications

- **SenseCAP Portal and SenseCAP Mate:** Seeed also provides the SenseCAP Portal and SenseCAP Mate to help users better manage and check data remotely.
