INDUSTRIAL PRODUCT DATASHEET

Industrial Light Intensity Sensor, MODBUS-RTU RS485 &0-2V (S-Light-02), with Waterproof Aviation Connector

Industrial Light Intensity Sensor (S-Light-02) with MODBUS-RTU RS485 &0-2V output for weather stations, solar farms, outdoor farming, greenhouse, and research.

SKU	UPDATED	PRICE
314990740	2026-11-05 04:36:05	$65.00(Excl. VAT)

Overview

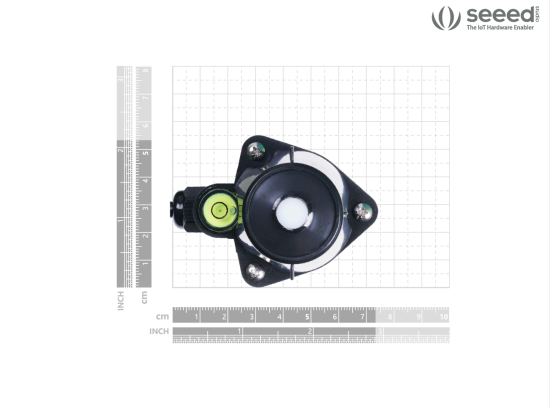

The Industrial Light Intensity Sensor (S-Light-02) is designed for light intensity monitoring in diverse outdoor and indoor environments. It is suitable for weather stations, solar farms, outdoor farming, greenhouse, and research applications.
