Overview

The IP68 Waterproof 5-pin Aviation Connector/Cable Plug SPI1310/P is a copper plated welding connector made with thermoplastic, rated IP68 and operating from -40°C to 85°C for electrical devices and machinery. It is suited for machine tools, electromechanics, communications, instrumentation, lighting systems, and vehicle-mounted equipment.

Key Features

01 **Connector for electrical devices and machinery**

02 **Copper plated welding connector**

03 **Temperature range**

-40°C~85°C

04 **Made with Thermoplastic**

05 **IP68 rated**

Applications

- **Machine Tools**
- **Electromechanics**
- **Communications**
- **Instrumentation**
- **Lighting systems**
- **Vehicle-mounted equipment**
