INDUSTRIAL PRODUCT DATASHEET

Magnifying glass with LED

A portable LED magnifier with dual lenses, perfect for detailed inspection of small components on the go.

SKU	UPDATED	PRICE
404120003	2024-08-09 02:15:06	$4.50(Excl. VAT)

Overview

This magnifying glass features two convex lenses for enhanced magnification and an LED light for clear viewing in dim conditions. Compact and keychain-sized, it is ideal for inspecting tiny objects such as machine parts, circuit boards, and microchips.

Key Features

Please read through the guide in Shenzhen 2 U before making any purchase in this catalogue.

Here we bring you a magnifying glass with LED. It's designed with 2 pieces of qualified convex lens, which has improved magnifying power; and LEDs, which provides better view when the light is too dim to read. Put it 2.5cm over the object horizontally, adjust a little bit to a perfect position to fit your eyes, there you go!

It's so small, you can easily tie it to your keys, and use it anywhere you want, very useful and convenient. You'll love it.

Function

- To produce a magnified image of an object, helps eyes to check on tiny objects, such as machine parts, mini circuit, currency, and to read number and letters on micro-chip, no matter how small and dim it is.

Feature

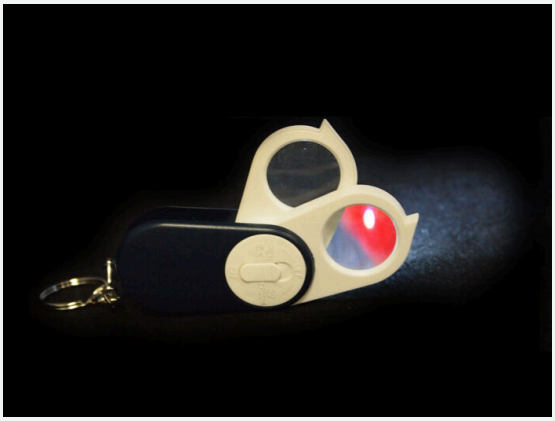

- Convex lens.
- LED - White Light
- Keychain
