INDUSTRIAL PRODUCT DATASHEET

Smart Indoor Harvesting Kit Using Wio Terminal & Blynk

An automated indoor harvesting system with real-time environmental monitoring and app-controlled watering and lighting via Wio Terminal and Blynk.

SKU	UPDATED
E21001916	2025-09-02 07:48:42

Overview

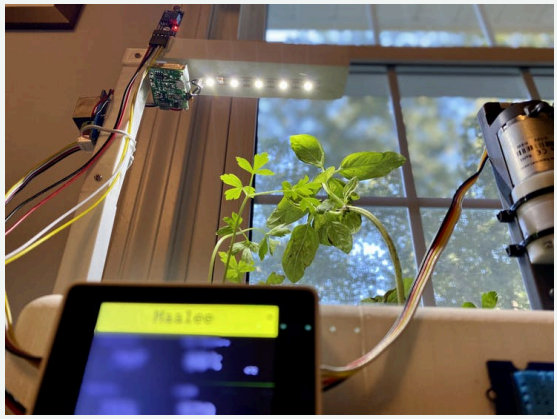

The Smart Indoor Harvesting Kit uses Wio Terminal to display real-time room temperature, humidity, ambient light, and soil moisture levels. All statuses can be monitored remotely on the Blynk app, with adjustable thresholds for automatic watering and lighting without code changes.

Key Features

- The Wio terminal's display screen displays real-time room temperature, humidity, ambient light, and soil moisture levels.
- All real-time related status can be seen on the Blynk app anytime and anywhere
- Automatic watering, and the watering threshold can be adjusted directly on the Blynk app according to different plant needs
- Automatic light can be switched on and off according to the preset time and adjusted according to the actual light.
- Threshold adjustment can be adjusted directly on the Blynk app without touching the code.
