INDUSTRIAL PRODUCT DATASHEET

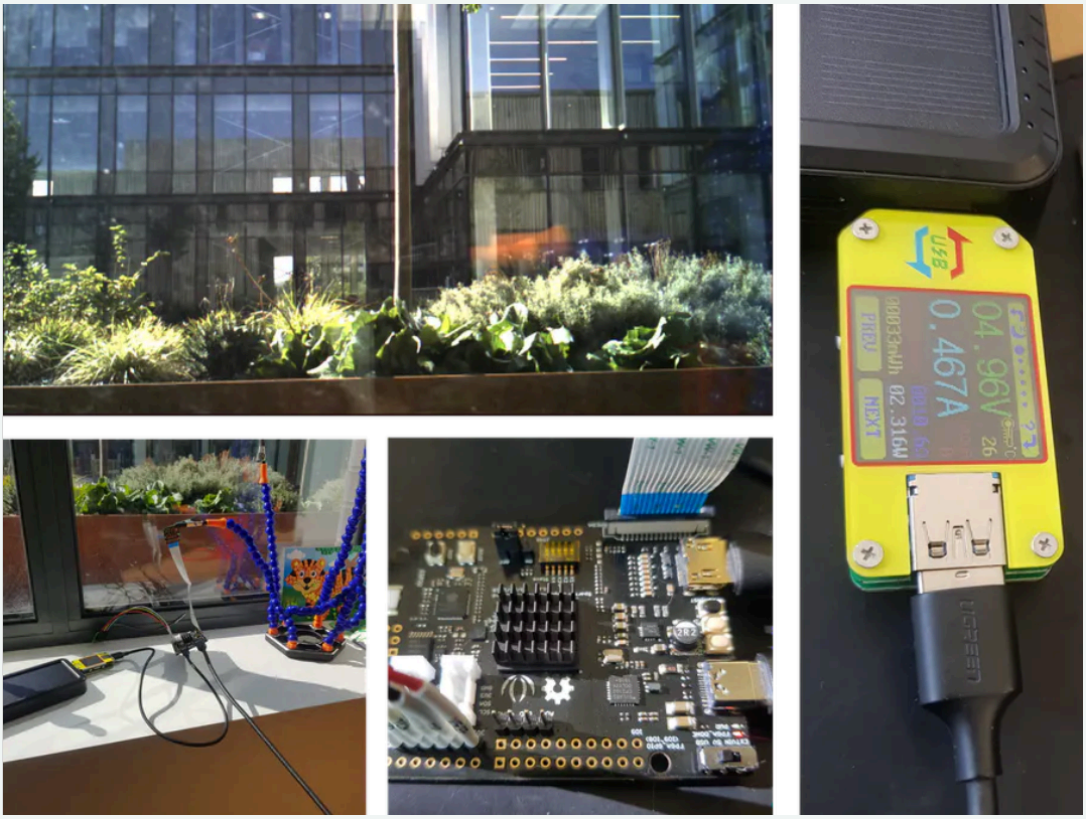

MIPI Imaging with the Spartan Edge Accelerator Board

Low-cost, compact, processor-free MIPI imaging board for complex imaging tasks with optimized port utilization.

SKU	UPDATED
E21001923	2024-08-09 02:43:27

Overview

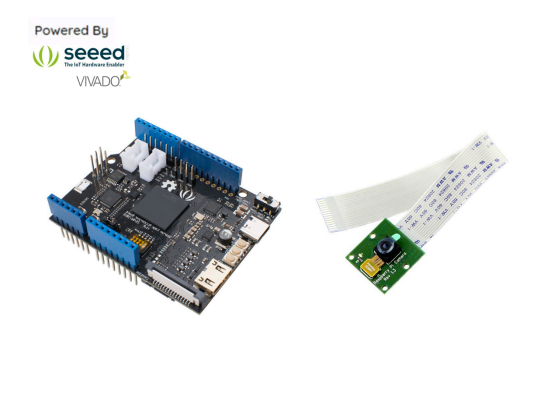

The MIPI Imaging with the Spartan Edge Accelerator Board is a processor-less imaging system that enables complex imaging schemes while improving port resource utilization. Its low cost and small size make it ideal for embedded vision applications.

Key Features

- No processor in this imaging system
- Can create complex imaging schemes
- Improve port resource utilization
- Low cost and small size
