INDUSTRIAL PRODUCT DATASHEET

Smart Trash Can IoT System Using LinkIt ONE & RFID

Low-cost IoT system for smart trash can information collection and cloud analysis using LinkIt ONE and RFID, suitable for urban garbage collection.

SKU
E21011026

UPDATED
2024-08-09 02:43:28

Overview

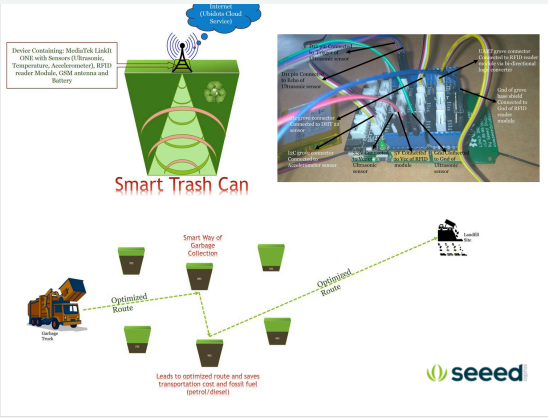

The Smart Trash Can IoT System Using LinkIt ONE & RFID features intelligent collection of trash can information, cloud upload, analysis, and synchronous update display. It requires only a one-time upload of latitude and longitude, no GPS needed, and offers low cost, complete functions, and broad applicability.

Key Features

- Intelligent collection of trash can information
- Information upload cloud analysis and synchronous update display
- Only need to upload latitude and longitude information once, no GPS required
- Low cost, complete functions, and a wide range of applications

Product Gallery

Applications

- **Smart cloud-linked trash can IoT system**
- **Smart cloud-linked urban garbage collection system**
