SenseCAP K1101 - IoT Course for beginners

The SenseCAP K1101 - IoT Course for beginners is an all-in-one kit featuring the Wio Terminal, advanced sensors, beginner courses, and SenseCraft technology for rapid AI, sensing, and cloud demonstrations.

SKU	UPDATED
E22011025	2024-08-09 02:48:13

Overview

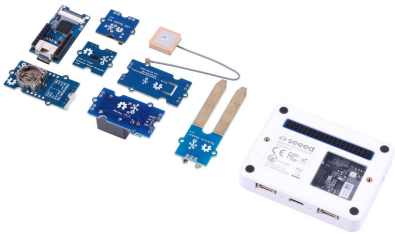

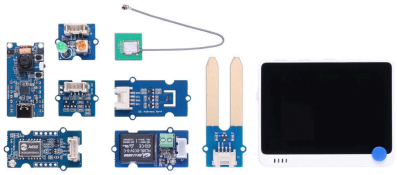

The SenseCAP K1101 kit integrates multiple electronics with the Wio Terminal and includes step-by-step IoT for beginners courses developed by Microsoft and Seeed Studio. With SenseCraft technology, users can quickly explore vision AI, smart sensing, and cloud data management for IoT knowledge learning, embedded machine learning studying, and electronics controlling inspiration.

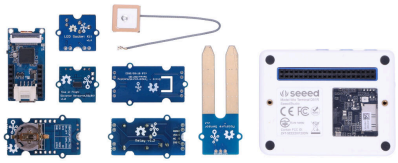

Key Features

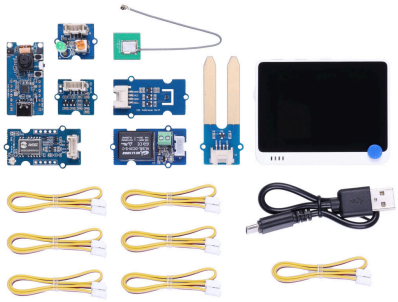

- **Multiple Popular Electronics in One Kit:** Choose the advanced sensors you like and work them with an all-in-one tiny edge terminal, Wio Terminal
- **IoT for Beginners Courses Attached:** Step by step present you the fundamental ideas of the Internet of Things and encourage you to explore more knowledge with multiple projects, credit to Microsoft and Seeed Studio
- **SenseCraft Technology Shared:** Exercising vision AI, smart sensing, cloud data managing and other enhanced demonstrations as quick as less than 10 minutes
