Crazyflie Loco swarm bundle

Customizable Crazyflie Loco swarm bundle with Python API and telemetry logging for STEM learning and professional applications.

SKU	UPDATED
E23030407	2025-09-02 07:48:41

Overview

The Crazyflie Loco swarm bundle offers customizable components for tailored drone setups, including a complete STEM bundle for scripting and 3D robotic operation. It features a full logging framework for telemetry data and an intuitive Python API, adaptable for hobbyists and professionals.

Key Features

- **Customizable bundles:** The Crazyfile Micro Quadcopter Drone comes with customizable bundles that allow users to choose the components that best fit their needs.
- **Complete STEM Bundle:** Providing everything that is needed for scripting and learning how to operate a robot in three dimensions and respond to objects around it.
- **Telemetry and Measurement Data:** The bundle offers access to a full logging framework that allows users to easily read telemetry and measurement data.
- **Python API:** It offers an easy-to-use Python API that allows users to use commands like "move forward 1 meter"
- **Adaptable to Different Applications:** Adaptation to different application scenarios makes it suitable for hobbyists and professionals alike.
