Smarthome Kit - Smart Outlet

Wirelessly control appliances with the Bee module-compatible Smart Outlet, designed for seamless Smart Home integration.

SKU	UPDATED	PRICE
POW03131P	2024-08-09 02:15:06	$41.30(Excl. VAT)

Overview

The Smarthome Kit - Smart Outlet enables wireless control of consumer loads up to 10A on a 100-240V home power line. It features a Bee socket compatible with XBee, BluetoothBee, and WifiBee modules, along with a 3.3V power supply and RG LED indicator.

Key Features

Description
The Smart Outlet is designed for the **Smart Home**. With this device you can connect between your outlet and your consumer load and by this control your 100-240V home power line easily.

There is a 3.3V power supply and a bee socket inside of the device. So you can connect every **Bee** module like the XBee, BluetoothBee or WifiBee to it and switch on and off every consumer load up to 10A. For example you can use the Smart Outlet with a WifiBee to control your rice cooker through the Internet or a Smart Outlet with a BluetoothBee to switch your TV on and off using your mobile phone. For what and how you are using it is limited only by your imagination.

Features

- Bee socket
- 10A AC controlling ability
- RG led indicator
